

TPRNFM1900

Features

- High-performance HPPE (High Performance Polyethylene) 18-gauge liner for advanced cut resistance and flexibility
- Meets ANSI Cut Level A6 protection for high-risk cut applications
- TPR (Thermoplastic Rubber) impact protection, ANSI 138 Level 2 rated for back-of-hand impact safety
- Premium black micro-foam nitrile palm coating for enhanced grip and durability
- Touchscreen compatible for use with mobile devices and equipment panels
- Green nitrile reinforcement in thumb crotch for added wear resistance and longevity
- Excellent abrasion resistance for extended glove life in demanding environments
- Available in sizes 8 (M) 9 (L), 10 (XL), and 11 (XXL)
- 6 dz/case

Applications

- Aerospace assembly, maintenance, and component handling
- Construction work involving sharp materials such as metal framing, rebar, and sheet metal
- Metal fabrication, stamping, and machining operations
- Glass handling, installation, and processing tasks
- Precision assembly tasks
- Handling sharp or abrasive components in production lines
